

American Indian Profile Template for New York State

Purpose: This profile is intended to serve as a tool to define State’s American Indian Population in New York State, and determine the availability of health care systems for American Indians/American Natives (AI/AN), and assess Chlamydia (CT)/Gonorrhea (GC) – related healthcare needs and gaps.

Please Note: AI/AN in Combination refer to individuals reporting race as AI/AN in addition to one or more other race(s) and/or Hispanic ethnicity.

Part I. Base Population Estimates

Table 1A. State Population and American Indians, CY 2010

Population	Male	Female	Total	%
State	9,499,163	10,042,290	19,541,453	100
AI/AN	64,104	65,218	129,322	0.7

Part II. Burden (Cases) of Chlamydia and Gonorrhea for American Indians/Alaskan Natives (AI/AN)

Table 2A: Estimated State Population, Number of Chlamydia (CT) and Gonorrhea (GC) Cases Reported for AI/AN, by Sex and Age, CY2008 – CY 2010

AI/AN in Combination

Gender	Age (Years)	2008			2009			2010		
		Est. State Pop	CT	GC	Est. State Pop	CT	GC	Est. State Pop*	CT	GC
Males	15 –19	<u>5481</u>	<u>7</u>	<u>1</u>	<u>5481</u>	<u>4</u>	<u>0</u>		<u>7</u>	<u>1</u>
