Healthy People 2020 Goals

- Attain high-quality, longer lives free of preventable disease, disability, injury, and premature death.
- Achieve health equity, eliminate disparities, and improve the health of all groups.
- Create social and physical environments that promote good health for all.
- Promote quality of life, healthy development, and healthy behaviors across all life stages.

National Partnership for Action

5

- The goals of the NPA and its National Stakeholder Strategy for Achieving Health Equity are:
 - **Awareness** - Increase awareness of the significance of health disparities, their impact on the nation, and the actions necessary to improve health outcomes for racial, ethnic, and underserved populations.
 - **Leadership** - Strengthen and broaden leadership for addressing health disparities at all levels.
 - **Health System and Life Experience** - Improve health and healthcare outcomes for racial, ethnic, and underserved populations.
 - **Cultural and Linguistic Competency** - Improve cultural and linguistic competency and the diversity of the health-related workforce.
 - **Data, Research, and Evaluation** - Improve data availability and coordination, utilization, and diffusion of research and evaluation outcomes.

6

5 goals: (FY) 2010-2015

I. Transform health care;

II. Strengthen the nation's Health and Human Services infrastructure and workforce;

III. Advance the health, safety, and well-being of the American people;

IV. Advance scientific knowledge and innovation; and

V. Increase the efficiency, transparency, and accountability of HHS programs.

HHS Action Plan to Reduce Racial and Ethnic Health Disparities

A NATION FREE OF DISPARITIES
IN HEALTH AND HEALTH CARE

“The HHS Disparities Action Plan complements the 2011 National Stakeholder Strategy for Achieving Health Equity, a product of the NPA”

Vision for Change

NCHHSTP aims to improve people's lives through a more holistic approach to health by maximizing the health impact of public health services, reducing disease prevalence, and ensuring healthier choices and opportunities for every community.

We will actively promote awareness, engagement, and action on SDH, striving toward fairness in policies, services, access, and environmental conditions.

Establishing a Holistic Framework to Reduce Inequities in HIV, Viral Hepatitis, STDs, and Tuberculosis in the United States

An NCHHSTP White Paper on Social Determinants of Health, 2010

“Social determinants of health refers to the complex, integrated, and overlapping social structures and economic systems that include social and physical environments and health services.”
