CONFERENCE DESCRIPTION

The 12th Annual Adolescent Health Institute provides the adolescent stakeholders throughout New Jersey the opportunity to focus on new information and resources as they relate to the many issues facing our youth. This is also a valuable opportunity for professionals to come together and network with their colleagues to share up-to-date information. Participants will gain important skills that can be incorporated into their work with this hard-to-reach population.

As a result of this training participants will have an enhanced understanding of the following:

- Adolescent Male Reproductive Health
